

Morphology Evaluation (Special Smear), Blood

## **Overview**

### **Useful For**

Detecting disease states or syndromes of the white blood cells, red blood cells, or platelet cell lines of a patient's peripheral blood

### **Profile Information**

Test Id	Reporting Name	Available Separately	Always Performed
DIFFS	Morphology Eval (Special	No	Yes
	Smear)		
SPSM_	Special Smear	No	Yes

### **Reflex Tests**

Test Id	Reporting Name	Available Separately	Always Performed
DIFFR	Morphology Eval (special	No	No
	Smear)		
PINTP	Peripheral Smear	No	No
	Interpretation		
CBCN	CBC without Differential	Yes	No
LCMSB	Leukemia/Lymphoma	Yes	No
	Phenotype		

### **Additional Tests**

Test Id	Reporting Name	Available Separately	Always Performed
PBPC	Peripheral Blood	No, (Bill Only)	Yes

### **Testing Algorithm**

If clinically abnormal results are identified by microscopic examination, a peripheral blood smear review is performed by a Hematopathologist at an additional charge.

If patient has not had a complete blood cell count in the last 3 days, one will be performed at an additional charge.

See Acute Tick-Borne Disease Testing Algorithm

### **Special Instructions**

Acute Tickborne Disease Testing Algorithm

### **Method Name**

Manual-Microscopic Examination of Cells

Morphology Evaluation (Special Smear), Blood

#### **NY State Available**

Yes

## **Specimen**

### **Specimen Type**

Whole blood

### **Necessary Information**

Clinician should provide indication for performing test.

## **Specimen Required**

Collection Container/Tube: 2 slides

**Specimen Volume:** 2 unstained, well prepared peripheral blood smears

Collection Instructions: Smears made from blood obtained by either a lavender top (EDTA) tube or finger stick specimen

### **Specimen Minimum Volume**

See Specimen Required

### Reject Due To

Gross	Reject
hemolysis	
Clotted blood	Reject

## **Specimen Stability Information**

Specimen Type	Temperature	Time	Special Container
Whole blood	Ambient (preferred)		CARTRIDGE
	Refrigerated		CARTRIDGE

## **Clinical & Interpretive**

### **Clinical Information**

Under normal conditions, the morphology and proportion of each blood cell type is fairly consistent in corresponding age groups. The morphology and proportion of each blood cell type may change in various hematologic diseases. Differential leukocyte count and special smear evaluation is helpful in revealing the changes in morphology or proportion of each cell type in the peripheral blood.

### **Reference Values**

Morphology Evaluation (Special Smear), Blood

1-3 years

Neutrophils/bands: 22-51% Lymphocytes: 37-73% Monocytes: 2-11% Eosinophils: 1-4% Basophils: 0-2% Metamyelocytes: 0% Myelocytes: 0%

4-7 years

Neutrophils/bands: 30-65%

Lymphocytes: 29-65%
Monocytes: 2-11%
Eosinophils: 1-4%
Basophils: 0-2%
Metamyelocytes: 0%
Myelocytes: 0%

8-13 years

Neutrophils/bands: 35-70% Lymphocytes: 23-53% Monocytes: 2-11% Eosinophils: 1-4% Basophils: 0-2% Metamyelocytes: 0% Myelocytes: 0%

Adults

Neutrophils/bands: 50-75% Lymphocytes: 18-42% Monocytes: 2-11% Eosinophils: 1-3% Basophils: 0-2%

Metamyelocytes: <1% Myelocytes: <0.5%

An interpretive report will be provided.

## Interpretation

The laboratory will provide an interpretive report of percentage of white cells and, if appropriate, evaluation of white cells, red cells, and platelets.

### **Cautions**

A poorly prepared peripheral smear may result in less than optimal interpretation.

### **Performance**

### **Method Description**

Microscopic examination of a Wright-Giemsa stained smear. (Unpublished Mayo method)

### **PDF Report**

No

### Day(s) Performed

Sunday through Saturday

### Report Available

1 day

### **Specimen Retention Time**

Slides: - 1 year

### **Performing Laboratory Location**

Mayo Clinic Laboratories - Rochester Main Campus

### Fees & Codes

### Fees

- Authorized users can sign in to <u>Test Prices</u> for detailed fee information.
- Clients without access to Test Prices can contact <u>Customer Service</u> 24 hours a day, seven days a week.
- Prospective clients should contact their account representative. For assistance, contact <u>Customer Service</u>.

#### **Test Classification**

This test has been cleared, approved, or is exempt by the US Food and Drug Administration and is used per manufacturer's instructions. Performance characteristics were verified by Mayo Clinic in a manner consistent with CLIA requirements.

## **CPT Code Information**
